

HEALTHCARE CONSULTING SERVICES: COVID-19 CODING AND DOCUMENTATION

Helping organizations manage dynamic changes to coding and documentation in the face of COVID-19

On March 27, 2020 the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was passed by Congress and signed into law by President Trump. Through a variety of provisions, the law provides additional Medicare and Medicaid expenditures to fund COVID-19-related treatment. Among the many changes, the CARES Act provides a 20% add-on payment to Inpatient Prospective Payment System ("IPPS") hospitals, Long-Term Care Hospitals ("LTCHs") and Inpatient Rehabilitation Facilities ("IRFs") for treatment of COVID-19 patients during the emergency period.

Facilities must quickly and efficiently change coding and documentation procedures to ensure accurate and timely reimbursement, however simply responding to ongoing changes is not enough. As hospitals continue to fight COVID-19 in the exam room, leading organizations must strengthen back office coding and documentation practices to assure timely payments.

HOW MAZARS HELPS

Mazars USA works with clients to assess and redesign revenue cycle operations, improve cash flow and lower documentation errors.

Our specialists work with clients to evaluate appropriate codes and changes in facility systems, assess documentation to support level of reimbursement, implement findings and improve patient throughput, and more.

OUR SERVICES

- ✓ COVID Coding and Documentation Support
- ✓ HIM Redesign
- ✓ Clinical Documentation Improvement Assistance
- ✓ Claim Data Mining
